Re: Cardington Road Site Coalition, et al. v. Snyder Properties, Inc., et al.

Dear Mr. Segreti:

To its knowledge, The Ohio Bell Telephone Company did not generate any hazardous materials sent to the site, nor has Ohio Bell been shown any evidence claiming otherwise. The only information was as to an uncertain amount of general rubbish - tree trimmings, paper waste and the like.

We extend the same request to your clients that we extended to the E.P.A. If you have information that Ohio Bell generated hazardous materials sent to the site, please let us know. Ohio Bell does not avoid its responsibilities under the law.

In the absence of any specific information, or even claim, that Ohio Bell generated hazardous materials sent to the site, Ohio Bell will seek all remedies available against any party who makes a baseless claim against it. Certainly, the Court order attached to your letter does not "authorize" the filing of a claim against Ohio Bell.

Very truly yours,

Thomas A. Linton
